Education

Bapuji Institute of Engineering and Technology (Aug 2019 – June 2023) - BE in Computer Science and Engineering (CGPA 8.02)

Experience

Product Engineer, TCS (June 2024 – Present)

- Developed and maintained **49 production REST APIs** for the Xerox Learning Platform using **Ruby and Ruby on Rails**, powering Android and iOS applications serving **50,000+ users**.
- Designed and implemented **23 APIs** for the **Content Player** module, delivering features such as content playback, thumbnail support, and enhanced media management.
- Built and enhanced **27 APIs** for the **Learn to Grow** mobile application, supporting scalable backend services for Android and iOS.
- Worked on cross-platform file and media handling for **PDF, video, audio, image, and document content**, addressing differences in browser behavior across Android and iOS/Safari.
- Collaborated in an Agile team of **4 engineers**, working with frontend and mobile developers to analyse requirements, develop APIs, perform testing using Postman and BrowserStack, and deliver production-ready releases.
- Participated and led my team in TCS AI Friday Hackathon where we built and presented a multi-RAG Agent and were awarded winners in the same.

Internship

Software Engineer, Meta16 Labs (Sept 2023 – Feb 2024)

- Contributed to a **healthcare digitization platform** using **React.js and MongoDB**, supporting hospitals and diagnostic centers.
- Led **end-to-end implementation, system integration, client onboarding, and data migration** for healthcare organizations across Karnataka.

Projects

1. Shree Spice Kitchen Cart – React E-commerce Cart (<https://shreespice-kitchen-cart.vercel.app/>)

Tools and Technologies: React.js, Tailwind CSS, Vite, Vercel

2. Dixit Offset Printers – React Business Website (<https://dixit-offset-printers.vercel.app/>)

Tools and Technologies: React.js, Vite, Tailwind CSS, Vercel

3. JobSpark AI – AI Resume Analyser(<https://job-spark-ai-91.vercel.app/>)

Tools and Technologies: React.js, JavaScript, AI Integration, Tailwind CSS, Vercel

Tools and Technologies

Languages: Ruby, JavaScript, HTML, CSS, SQL

Backend: Ruby on Rails, REST APIs, ActiveRecord

Database: MySQL, MongoDB

Testing & API Tools: Postman, BrowserStack

Database: MySQL, MongoDB

Frontend: React.js, Tailwind CSS, Vite

AI: RAG Systems, Multi-Agent RAG, AI Integration

DevOps & Deployment: Jenkins, Vercel, Git
